NICHOLAS A. TOUMPAS COMMISSIONER

June 16, 2011

Representative Ken Weyler Chairman Fiscal Committee of the General Court State House Concord, NH 03301

Re: Dashboard - May 2011

Information

Pursuant to Chapters 143 (HB1) and 144 (HB2), Laws of 2009, the Department of Health and Human Services is providing this dashboard report. This dashboard, along with the quarterly report to the Fiscal Committee on expenditures for the Medicaid program, provides a status on demand for services in entitlement programs. The purposes of this dashboard are to:

- 1. Provide summary information on enrollments in several of the high cost programs managed by the Department
- 2. Monitor high level fiscal issues to ensure sufficient funding is available for entitlement programs and for programs intended by the legislature, and to
- 3. Provide a summary of significant administrative and operations initiatives.

Explanation

Chapter 144:39 (HB2), Laws of 2009, provided certain restrictions and authorities to the Department of Health and Human Services to address potential budget shortfalls. Specifically, paragraph I required prior approval of the Fiscal Committee of the General Court and Governor and Council (G&C) for any change to program eligibility standards or benefit levels that might be expected to increase or decrease enrollment in the program. Paragraph III authorized the Commissioner to transfer funds, with the exception of class 060, benefits, within and among all PAUs within the Department, as the Commissioner deemed necessary and appropriate to address present or projected budget shortfalls subject to the approval of the Fiscal Committee and G&C. Chapters 143:9 and 143:13 (HB1), Laws of 2009, required the Department to provide a quarterly report of reductions made under these sections to the Fiscal Committee and G&C.

Individuals Enrolled For Services

As noted in Table 1, caseloads continue to grow for most services, but at a much slower rate than was experienced in SFY 2010. The total number of unduplicated persons grew by 11.6% during the first eleven months of SFY 2010 versus SFY 2009. The SFY11 growth rate has slowed to 4.9%. The same trends have existed for each of the listed services. It is important to note, however, while caseload growth has slowed, except for long-term care and Financial Assistance for Needy Families (FANF), caseloads have not declined and the Department continues to serve an unprecedented number of clients.

			Table 1			
		Persons I	Enrolled in	Services		
	May-11	Vs	SFY11	Vs	SFY10	Vs
		Prior Year	Average	Prior Year	Average	Prior Year
Total Unduplicated Persons	154,589	2.9%	152,662	4.9%	145,551	11.6%
Medicaid Persons	120,353	1.0%	119,497	2.3%	116,835	9.2%
Long Term Care-Seniors	7,140	-0.5%	7,218	-1.1%	7,297	0.9%
FANF Persons	13,330	-6.4%	13,735	-2.5%	14,090	18.2%
APTD Persons	9,009	5.3%	8,767	6.2%	8,254	14.1%
SNAP Persons	114,611	6.0%	112,107	14.0%	98,359	36.6%

Medicaid Program

Medicaid is the largest and most costly program administered by the Department. Total Medicaid costs account for in excess of 70% of total Department costs. Medicaid costs are a function of enrollment, utilization and rates. Options for controlling Medicaid spending are limited. Rates have been reduced or frozen in past budget reduction programs, controlling utilization is restricted by State and federal regulation, and reducing enrollment through changes in eligibility criteria is prevented by the American Recovery and Reinvestment Act (ARRA) and the Patient Protection and Affordable Care Act (PPACA). As noted below, the Department is studying various options for managed care as a way to improve health outcomes of Medicaid clients, as well as better managing the escalating costs of health care.

Elderly & Disabled Caseloads

One trend of note is the increase in Medicaid enrollment among the high cost elderly and disabled populations. The growth in enrollment for Aid to the Permanently and Totally Disabled persons, as noted in Table 1, has exceed that of any of the other major programs. Kaiser Foundation reports on a national level the elderly and disabled represent 25% of Medicaid enrollees yet account for 67% of the Medicaid cost. In a February 2011 report, Kaiser also noted "enrollment growth among the aged and disabled has exceeded the rate of growth of the overall US population, and has significantly contributed to higher Medicaid costs due to the high cost of medical care for this population." They identified the following factors behind this trend:

- "Baby boomers," who are now in the 55-64 age range, when the likelihood of disability increases, and are beginning to expand the elderly population;
- New medical technologies and advances in pharmaceuticals that save, improve and lengthen lives for many—and increase the number of people living with disabilities, many of whom rely on Medicaid to pay for their care;
- Increased ability to recognize and treat chronic conditions, particularly mental health problems, which may contribute to enrollment growth among the disabled.

There is also evidence that during the current recession, the disabled have been more likely to become unemployed sooner and apply for disability benefits through both supplemental security income (SSI) and social security disability insurance (SSDI).

Administrative Reorganization

The Department has been in the process of restructuring and downsizing the organization. In May 2009, 251 positions were vacant for a vacancy rate of 7.5%. At May 31, 2011, two years later, there are 554 vacancies for a vacancy rate of 16.5% (Table D). Most of these vacant positions will be abolished by HB1 for SFY 2012-2013, thus permanently reducing the size of the organization. In SFY 2000, the Department had a budget of \$1.2 billion and approx. 2,811 filled positions, which equates to a staffing ratio of 2.4 employees per million dollars of budget. The SFY 2011 budget is \$2.1 billion and filled positions are 2,813 for a staffing ratio of 1.3.

The downsizing of the organization comes at a time when the Department is also being tasked to implement elements of the Accountable Care Act and transformation initiatives required by the SFY 2012-2013 budget. The implementation of the Affordable Care Act (ACA) requires new roles for Medicaid. We will face the challenge of implementing reforms including implementing the Medicaid expansion, transitioning to a new income eligibility methodology for Medicaid, setting up Health Insurance Exchanges, re-designing eligibility systems to coordinate with the Exchanges, and implementing new program integrity functions as required by the regulations. Transformation initiatives are summarized below.

Transformation Initiatives

The following significant initiatives are contemplated within the next two years.

- 1. <u>Care Management</u> The budget requires a managed care model for administering the Medicaid program and its enrollees to provide for managed care services for all Medicaid populations throughout New Hampshire consistent with the provisions of 42 U.S.C. 1396u-2. The budget includes savings of \$16 million general funds for this initiative.
- 2. <u>Children's Health Insurance Program (CHIP)</u> The budget requires a restructuring of the administration of the Children's Health Insurance Program that will include, but is not limited to, a Medicaid expansion, accountable care organization or risk-based managed care model.
- 3. Mental Health, Transitional Housing The budget transfers \$12 million general fund from institutional care to community based care to develop additional community capacity under the 10-year plan, develop private intensive community residential program on the campus of NHH, discharge THS patients to community providers and APS, and discharge continuing care patients to community providers and keep some on admissions units.
- 4. Mental Health, Limitation on Services RSA 135-C:13 is amended to limit admission to the state mental health services system and access to treatment and other services within the system to the amount of available appropriations. The community mental health program will conduct clinical assessments of applicants for services and prioritize delivery of services based on the severity of the individual's clinical needs.
- 5. <u>DDAA & CMHC Consolidation</u> The budget requires a consolidation of Developmental Disability Area Agencies and Community Mental Health Centers. Savings of \$1.8 million general funds are reflected in budget.
- 6. <u>Front End Operations</u> The budget directs DHHS to pursue operating and service consolidation initiatives, in an effort to improve service delivery, obtain operating efficiencies, and promote the well-being of the State's citizens. This includes changes in ways to accept and process applications for services. Savings are expected through.
- 7. Consolidation of district offices and a savings in field staff through attrition.
- 8. Consolidation of contracts Savings have been budgeted related to consolidation of the number of contract. This is intended to reduce the administrative costs associated with the processing and approval of State contracts, minimize expenditures in areas other than direct care and assistance to the persons in need served by the department, mitigate, to the extent possible, the negative effects of reductions in budgets and services, and create an efficient, effective and stable community system of health and human services agencies for the future.
- 9. <u>DHHS Operations</u> In addition to the elimination of 475 positions from DHHS staffing, the budget anticipates savings from consolidation of statewide human resource and payroll functions and business processing functions, which will also likely impact DHHS staffing.
- 10. <u>Transfer of Lab</u> The budget requires transfer of the Department of Environmental Services; Water Quality Laboratory Services to DHHS.
- 11. <u>Home Health Aid Pilot Project</u> The budget requires DHHS to establish a pilot project for Home Health Aide Services for Children who are Medically Fragile or Children with Chronic Illness.
- 12. Health Information Exchange Implement Phase 1 of the HIE capability for New Hampshire.
- 13. Child Support System Develop an architecture and plan migration of NECSES from the current platform.

Representative Ken Weyler Page 4 June 16, 2011

Summary

The Department and State government as a whole have been faced with significant fiscal challenges. For SFY 2010 and SFY 2011, the Department was proactive in addressing these fiscal issues and was able to service escalating caseloads within its limited resources, both financial and staff. The Department has been continually committed to making critical assessments of the current systems for management of care for clients, meeting eligibility criteria and to transitioning delivery systems to more effective and efficient systems with the intended purposes of improving the value of the services delivered.

These transitions require a clear definition of what constitutes a New Hampshire health and human service safety net, and difficult decisions on how best to deliver those services through new technologies and contractual arrangements with providers of those services. This message has been conveyed to providers, advocates, policy makers and Department employees and is the basis for the SFY 2012-2013 budget.

Respectfully submitted,

Nicholas A. Toumpas Commissioner
